Kevin Rompca

Organized and dependable candidate successful at managing multiple priorities with a positive attitude. Bringing a strong work ethic and a proactive approach. Dedication to teamwork and adaptability make me a great asset in dynamic and static work environments.

Work History

2020-05 - 2020-05

IT Support Shadower

Espi Ltd

During the one-week placement, I learnt:
- How to communicate formally with
- customers through email.
- How to use remote access.
- How to support the customers.
- How the maintenance of servers process works.

2020-09 - Current

Warehouse Worker

Plumbs Dairy Ltd

- Maintained safe and clean work environment by keeping warehouse work areas neat, floors clean and goods safely stacked.
- Maintained high levels of accuracy in daily operations of placing goods for delivery drivers.
- Recorded daily deliveries against the orders that were placed.
- Alternated goods in inventory by observing first-in and first-out approach to keep shelves organized and properly stocked.
- **Prepared and made orders 6 days a week, a week at a time, several times, to resupply the low in stock goods.**
- Maintained high levels of communication with higher-ups, informing them of any issues with deliveries or stock levels.
- **Created automatic features to a calculation excel spreadsheet, which was designed for ordering.**
- Educated newest employees about their job to a high standard.

Technical Skills

- Microsoft Excel Proficient - Can do VBA
- Adobe InDesign Basic - Designed CV by hand
- SQL   Basic+
- HTML & CSS   Basic
- Python   Basic+
- C#   Semi-Advanced
- Other Microsoft 365 Advanced
- IT Problem Solving Advanced

Personal Projects

Some of the projects that I have completed:
- Game automation in C# and first design being in Python
- Crypto/Stock alerter, and tracker using API and web scraping
- A stock scraper that puts key metrics into small graphs to view overall trends
- A small set of buttons that allow fast access between virtual desktops on Windows

 More projects I completed, what I'm working on, and future projects can be found on the GitHub page linked below.

 Github page on some of the projects: https://github.com/sharpjug/projects.git

 Meanwhile, I have also started to explore problem-solving sites like leetcode to further improve my programming skills.
